

Assignment 3 (100 points)

Due at 11:59PM on April 19 (Tuesday)

Project: Share Your Travel Photos, Time for Some Style

Overview

This project updates your existing project from Chapter 2 to add some visual stylistic improvements with CSS.

Instructions

1. Use your **chapter02-project01.html** file from the last chapter as a starting point (and rename it) or take our **chapter03-project01.html** starting point file.

2. Create an external style sheet called **reset.css** that removes all the browser formatting from the main HTML elements and reference inside **chapter03-project01.html** as follows:

```
html, body, header, footer, hgroup, nav, article, section,
figure, figcaption, h1, h2, h3, ul, li, body, div, p, img
{
    margin: 0;
    padding: 0;
    font-size: 100%;
    vertical-align: baseline;
    border: 0;
}
```

3. Create another external style sheet named **chapter03-project01.css** and include it in your HTML file as well.

4. Add styles to **chapter03-project01.css** so that it looks similar to that shown in Figure 1.

Be sure to group your style rules together in appropriate commented sections and to make your sizes scalable (i.e., don't use pixels for font sizes, padding, or margins).

Here's a hint for the header and footer.

```
header, footer {
    color: white;
    background-color: #3D6271;
    margin: 0;
}
```

Test

1. Although an exact match is not required, see how closely you can make your page look like the one in Figure 1. Be sure to test in multiple browsers and at different browser widths.
